#### HOME TOWN STUFF

Business is picking up for the pro-processor of this column and it now seems probable that he will make it through to spare rib and sausage season. Yesterday, J. E. Lutz brought in a fine collection of persimmons, produced in his orchard here in Vernon. The persimmons were of some improved varieties and were luscious in flavor as well as beautiful in color. The old-time wild persimmons, which H. T. had experience with as a boy, were not so beautiful in color as the ones brought in by Mr. Lutz, but unless memory exaggerates their flavor they were very bit as good.

The old black persimmons that grew in great profusion in the wooded country of Central West Texas back in the old days, and probably still grow there, were supposed to have their best flavor just after the first frost. At least that was the tradition and it was respected. Black persimmons and black haws got ripe along about the same time of year, and these delicacies along with pecans just beginning to ripe made a noble combination. The boy who hasn't had the privilege of going hunting in the season of the year when persimmons, haws and pecans were ripe has been denied something. The wooded section of Texas, where persimmons, haws, pecans—all growing wild—and squirrels and rabbits and 'possums in abundance are a paradise for boys in the late fall and early winter. But H. T. is much obliged to Mr. Lutz for the persimmons, because of their own worth and because they stirred up a thousand pleasant memories of tramps through the wood, in company with a gang of boys and a pack of mongrel hounds, in search of wild game and wild fruit. What could be finer?

Another piece of good fortune is a jar of fig preserves, sent from Wheelock, down in Robertson County, by Mrs. C. A. Killough, to Home Town. They were brought by her son, Judge R. D. L. Killough, who recently visited his mother on her farm. These gifts of fig preserves—and H. T.'s idea of the best eating in the world is fig preserves—come from Mrs. Killough to this newspaper man every once in a while, and some of these days H. T. is going to make a visit to Wheelock just for the purpose of thinking Mrs. Killough in person for remembering a friend of her son, way out here in a country where we grow cotton—lots of it—a little feedstuff, just a little fruit and buy most of our food supplies from more thrifty people in other sections of the State.

Mr. Killough is 71 years of age and still has abundant energy to preserve fruits, raise chickens and turkeys and take an active interest in the operation of her farm. She says she sees no reason why Texas farmers should ever complain about hard times, if they will produce their own food supplies at home and use cotton merely as a surplus money crop. Out here in West Texas we sometimes have fun at East Texas folks and their manner of living. But East Texas people are way ahead of a majority of our West Texans when it comes to living. Too many of our West Texans buy the bulk of their food from the grocery stores.

Superintendent Davis of the Quanah Schools told H. T. in person that he and his football team were coming down to Vernon tomorrow for no other purpose than to beat Vernon playing football. Of course, H. T. at first was inclined to take the matter lightly, but Mr. Davis seemed so earnest about it, that likely as not they will try to do that very thing. It will be hard to believe until it actually happens, but strange things have come to pass in Texas within recent memory.

He made his plans for a survey tomorrow of a new Venezuelan air mail route, sponsored by Pan American Airways, as is his present 7,000 mile tour. Cooperating with Colonel Lindbergh in preparations for the air mail route was Juan T. Trippie, president of Pan American Airways and a passenger on the Caribbean circle tour. Washington, Sept. 27.—(A-P)—Senator Robinson of Arkansas, Democratic leader, said in the Senate today that those urging retention of the flexible provisions in the pending tariff bill as a "prompt remedy" for correcting mistakes in rates between sessions of Congress were speaking without foundation in either "fact or consistency" for supporting their conclusions.

Robinson opened the fourth day of debate on the clause which authorizes the President to change duties up or down within a range of 50 per cent after investigation by the tariff commission. Although President Hoover has thrown his influence behind retention of the provision, a vote on the question is expected to be close. Republican leaders look for this vote early next week.

Robinson took issue with the position of Senator Reed, Republican, Pennsylvania, that the real question was whether the flexible principle should be continued.

Pending resumption of the investigation Monday when Shearer will be called, the Senators are awaiting word from the naval officers who were named yesterday by Drew Pearson, a newspaper correspondent, as associates of Shearer. Pearson was at the time of the conference. If the naval experts should fail to answer Pearson's statements, the committee is ready to summon them.

He declined to say definitely if he would send state troops to the Hutchinson County oil town, where District Attorney John A. Holmes was assassinated.

#### REVISED SCOUT AREA APPROVED

COMMITTEE APPOINTED TO CONSIDER APPLICATIONS FOR EXECUTIVE

Revisions of the budget and the area in which intensive service will be rendered were adopted at a meeting of the Quannah Parker Council, Boy Scouts of America, last night in Quannah. Formal approval was given to recommendations of a committee appointed at a Council meeting last Monday night revising the budget downward from \$7,200 per year to \$4,300 and confining the intensive service of the executive to four counties, namely Wilbarger, Hardeman, Foard and Cottle.

A special committee was appointed to consider applications for the position of Scout executive. The committee will meet at an early date in Vernon. Representatives of each of the five principal towns in the new territory are on the committee. Vernon, Crowell, Chillicothe and Quannah were represented at the Council meeting last night. H. L. St. John, chairman of the local council, and H. H. Nichols were in attendance from Vernon.

"The law is not being observed and not effectively enforced by the existing officers," Governor Moody said. "We find that this is not the fault of the judiciary, but of the peace officers."

"The peace officers for some reason are failing to suppress crime and bring criminals to justice. At present the law-abiding citizens are being intimidated and are living under a menace which prevents them from giving information of law violations."

"At least one ex-convict is a peace officer in the county, and other peace officers have been charged with felonies."

He said all of his investigators with the exception of General Walters, who had not been at the scene long enough to reach such a conclusion, reported to him "there exists a conspiracy between officers and the criminal element or law-violators."

#### New Evidence of German Sabotage To Be Considered

Washington, Sept. 27.—(A-P)—New evidence in the \$40,000,000 sabotage claims against Germany, based upon alleged responsibility of German agents for the Black Tom and Kingsland, New Jersey disasters of 1916 and 1917, is to be laid before the mixed claims commission.

The evidence tells how Theodore Vazniak, who worked at the Kingsland foundry and had been widely sought for more than 12 years, appeared at the office of the German agent of the commission in Washington several weeks ago, admitted the Kingsland fire started at his workbench, denied he was in the service of Germany and told how he had lived in New York while the search for him was in progress.

Tender of the evidence—a mass of documents and papers filling five volumes—produced in the commission a state of tension virtually unmatched in the history of the body. Immediately, the American agent submitted objections to its admission. This move brought a reply from the German agent, and now the commission must decide what parts if any of the new material is to receive consideration.

#### Tropical Storm's Path Puzzling to Weather Bureau

Miami, Fla., Sept. 27.—(A-P)—Concern for the safety of the Southeastern Florida coast, which was dissipated by official word from the Washington weather bureau today, was replaced by fears that the West Indian disturbance, now reported South of Andros Island, Bahama, would affect the keys of the peninsula or recurve and again approach Nassau, Bahama capital.

While the Washington bureau was unable to fix the probable path which the storm would pursue, it advised residents of the Florida Everglades region that they might safely return to their homes for the present.

## "Did Me a World of Good," Declares Mrs. J. E. Kelley

POPULAR SWEETWATER WOMAN FEELS LIKE A DIFFERENT PERSON SINCE TAKING ORGATONE

"Just a few bottles of Orgatone have done me so much good that I actually feel like a different person," said Mrs. J. E. Kelley of 604 1/2 Ash Street, Sweetwater, Texas, the other day.

"For about three years past I have been a sufferer from stomach trouble and nervous indigestion," continued Mrs. Kelley. "I didn't have any appetite at all and sometimes what little I did eat just seemed to lodge in my stomach in a lump and sour and form gas when I would suffer perfect agony and at times this gas would press so against my heart that I felt like I could hardly get my breath. I was often very dizzy headed and had awful headaches almost all the time, and I finally got so weak and run-down that I was hardly able to attend to my work. I didn't seem to have a particle of energy and life was a burden to me, and although I tried several tonics in the hope that they might build me up, nothing that I took did me a bit of good and I got to where I was hardly able to do anything and just dragged around all the time.

"I heard so much about Orgatone that I got interested in it and when several people told me the relief they had gotten by taking it I decided to give it a trial, so I got a bottle and to my great surprise I could notice that my appetite was beginning to pick up before I had finished that first bottle and I wasn't troubled so much after eating. I continued to take Orgatone until now I have a fine appetite and can eat just anything I want. I am not troubled a particle with gas on my stomach and I don't have any headaches or dizzy spells any more. I'm not at all nervous now and can sleep as soundly as a little child at night and get up in the morning feeling rested and refreshed and have lots of energy and am able to do my housework every day now; in fact, I'm better in general health right now than I have been for three years past. Orgatone has surely done me a world of good and I take pleasure in speaking a good word for it."

Genuine Orgatone is manufactured by one of the world's largest laboratories and is not a so-called secret or patent remedy but a new scientific bile treatment and is sold in Vernon, by the Vernon Drug Store. Adv.

## FRENCH FLYERS SEEKING LONG DISTANCE MARK

Dieudonne Coste and Bosom Friend Maurice Bellonte Speeding Eastward in Question Mark in Effort To Set New Record for Aviation.

Le Bourget, Sept. 27.—(P)—Eastward from Paris today streaked Dieudonne Coste, French air ace, and his bosom friend Maurice Bellonte, in the famous soucoupe, Question Mark on a long distance flight aimed to break the world's record and put the pilots down somewhere in far Siberia.

Announced as a distance flight to the east, nevertheless the objective of the temperamental Frenchman and his companion remained uncertain until after the start because some thought Coste had prepared to make another attempt to fly the Atlantic and reach New York.

The Question Mark was rolled from its hanger at dawn to puzzle watchers waiting for the start of a mystery flight. Stripped of wireless equipment and heavily loaded with fuel, the start was made at 8:16 a. m. The plane cleared the runway at a thousand yards; then touched lightly again at the 1,200 and 1,400 yard distances before rising sluggishly to 100 feet to veer into the east and disappear in the direction of Salsons and Laon.

Returning military air escorts attested to the fact Coste really was headed east, that he had already passed over Crepy-En-Valois at a fast clip, this point being about half the ninety miles to Laon, northeast of Paris.

Mrs. Cynthia Murray, of Dallas, is a guest this week of Mrs. Bob Farrell.

New Orleans, Sept. 27.—(P)—The cotton market opened somewhat easier as cables came in better than due. First trades showed losses of 7 to 7 points. The market continued to ease off owing to hedging and selling due to failure of the hurricane to strike the Florida coast. October traded down to 18.15, December to 18.35, and January to 18.46 or 7 to 10 points under yesterday's close. Toward the end of the first hour, prices recovered most of the early decline due to unfavorable weather.

## Action Deferred on Martial Law Step for Borger

Austin, Texas, Sept. 27.—(AP)—Decision as to institution of martial law at Borger was awaited today.

Until early this morning Governor Dan Moody sat in a hotel room with General Jacob F. Wolters,

Texas National Guard, and Clem Calhoun, acting district attorney in Hutchinson County, and listened to their stories of conditions there.

Governor Moody sent General Wolters to Borger for the specific purpose of recommending to him action in the move to run down the slayers of District Attorney John A. Holmes and to drive out lawlessness.

District Attorney Calhoun did most of the talking in the conference.

The meeting between the Governor and General Wolters and Calhoun was delayed in getting under

way. After driving 625 miles to reach Austin, the emissaries waited 2 1/2 hours on Governor Moody, detained at a banquet given by friends to former Governor Pat M. Neff, here representing Waco in a Railroad Commission hearing.

The conference got under way at 10:10 p. m., and shortly after midnight the Governor told newspapermen he would defer action.

## Business College Will Be Opened in Vernon Soon

Plans for opening a commercial school in Vernon were announced today by P. H. Gardner, who has just moved here from Jackson, Miss. He expects to open the school, which will be known as the Vernon Commercial College and Auditing Firm, by October 1. Final arrangements for the location have not been perfected, but negotiations are under way for space in the heart of the city's business district.

Mr. Gardner, who with Mrs. Gardner, will compose the teaching staff is a former student of North Texas State Teachers College, the University of Texas, the University of Colorado, and Central Texas Commercial College. He has had ten years experience as an accountant. Mrs. Gardner is a product of Tyler Commercial College.

A desire to cooperate with the business men of the city in developing trained workers here in Vernon was expressed by Mr. Gardner, who has had considerable experience as a teacher of commercial courses. Diplomas will be granted at the school only after the students have completed the full course and have worked two weeks for some local firm free of charge for the experience, he explained. Every effort will be made to make the graduates capable of filling posts for which they have been trained in a highly acceptable manner, Mr. Gardner declared.

He was enthusiastic about the outlook here, and asserted that a business college would be an asset to the city in that it would not only provide local young people an opportunity to improve themselves but would draw students from surrounding communities.

# ALL DISTRICT TEAMS TO SEE ACTION THIS WEEK-END

## VERNON-QUANAH LEAGUE GAME FEATURES CARD, BUT COYOTES DEBUT COMMANDS ATTENTION

**THIS WEEK'S SCHEDULE**  
Vernon vs. Quanah, at Vernon.  
Lubbock vs. Crosbyton, Lubbock.  
Plainview vs. Childress, Childress.  
Wichita Falls vs. Lawton, Wichita.  
Electra vs. Pampa, Pampa.  
Amarillo vs. Oklahoma City, Amarillo.

Every class A football team in District No. 1 of the Inter-Scholastic League gets into action this week, with Vernon and Quanah holding the center of interest as they open the League schedule at Vernon Saturday afternoon. Other teams of the district are playing practice affairs, although one or two are meeting teams that will furnish some real opposition.

The game here is far from being decided in advance. The Lions entered this week heavy favorites after displaying an almost invincible line in defeating Frederik last week 8-6, with the Quanah Indians having a

15-7 loss to Crowell, a 24-2 loss to Childress and a 33-6 defeat at the hands of Chillicothe marked up against them. However, injuries which kept Lawrence out of last week's game have spread and Dolan, who turned in a stellar performance at tackle last week, Rodman, regular center, Anderson, another tackle, and Marrs, end, will not see service tomorrow. This, along with the announcement that Quanah is bringing a heavier and better conditioned team to Vernon than last year, is a bit disconcerting.

Electra is off to meet the Pampa class B squad on the home ground today after dropping a game to Grandfield, 12-6, last week. Pampa is always strong, and playing at home, should give the Tigers a battle not quickly to be forgotten.

The first opportunity to compare scores will be presented by the Plainview game with Childress today. The Bobcats having turned back

## Chillicothe and Crowell Clash on Gridiron Today

When the Crowell Wildcats tangle with the Chillicothe Eagles this afternoon on the Chillicothe High School gridiron, two teams of approximately equal strength will meet. Both squads are in the class B division of District No. 3 and both squads are handicapped by a shortage of material.

Coach Grady Graves of Crowell has 15 men wearing uniforms and the entire 15 see service in each contest. Coach C. V. Hill of Chillicothe has 11 regulars and two substitutes. Today's game is the first of two played by the two teams as they meet on November 11 for a League game. The rivalry between the two high school elevens is so intense however that two games during the season does not arouse unusual comment.

Quanah already 24-2. Plainview showed nothing but straight football last week in playing Floydada to a scoreless tie.

The Sandies, who turned back Norman 13-0 last week, are playing host to a Sooner eleven again this week. This time it is Oklahoma City, and the invaders are expected to force the champions of this district to show more than the straight football displayed last week if the Texans are to win.

Lubbock in entertaining Crosbyton has another easy affair. The Westerners are warming up slowly, having taken on and disposed of the Falls team last week 21-6.

The Wichita Falls Coyotes' game with Lawton today is attracting considerable interest here, as the Coyotes, having played no games under their new coach, Barry Holton, have been the question mark of the district. It will be the first opportunity to see the new mentor's team at work.

Emphasizing new playing strength and a new coach, Dartmouth is trying a comeback this year. Jackson Cannell is the new coach. Al Marsters in a holdover star.

## Absence of Four Regulars From Lion Line-Up for Saturday Game Gives New Aspect to Vernon Hopes

Absence of four regulars and a second string tackle from the Lion line-up in the League opener here tomorrow at 3 o'clock with the Quanah Indians gives Vernon's hopes an entirely new aspect as the squad prepares for the startling whistle.

Rodman, center, is out of tomorrow's game and probably the one following with Grandfield, Okla., with a bad nose and head injury following the heavy scrimmage of Wednesday afternoon. Crawford, quarter back, is out with a torn shoulder ligament. Lawrence, half, is still out with a knee injury received in the Chillicothe scrimmage.

Dolan, right tackle, is out with a leg injury and Anderson, also tackle, has a bad nose injury. Jack Marrs, end, has a nose injury but will likely see service against the Indians.

Coaches Weir and Binion ran the entire squad through formations to be used in approaching games yesterday afternoon. Exercise and drills in passing, kicking and individual instruction on playing positions were stressed in the workout. Several of the young Lions have a tendency to tackle an opponent too high, having failed to learn the gridiron lesson of safety to themselves in tackling low.

The Lion captains for the Indian clash were named as Rayford Thomas and Vernon Manis. Several shifts from the marine squad have been made this week. Armstrong, candidate for an end position, has been shifted to the regulars and Caldwell, hefty tackle, touching the scales at 225 lbs., is likely to see service against the Indians.

The probable starting line-ups:  
Vernon Position Quanah  
Richards Left End Norman  
Paschal Left Tackle Harrill  
Thomas Left Guard Moseley  
R. Parker Center C. Bolton  
Vernon Right Guard Turner

## DIXIE SERIES RIVALS SPEED TOWARD DALLAS WITH STEERS HAVING DROPPED TWO IN ROW

Birmingham, Ala., Sept. 27.—(AP)—Dallas and Birmingham professional baseball representatives were speeding across the Mississippi Valley country today en route to Dallas where the Dixie series will be resumed tomorrow.

The Barons were in fine spirits as a result of their two game lead over their Texas rivals and were confident they would be able to take two of the three games scheduled in Dallas and do away with necessity of returning home to continue the championship battle.

The Barons made it two straight yesterday by hammering five Dallas hurlers for 16 hits and a 7 to 6 victory. The game was a grand jamboree of baseball, with plenty of hits, plenty of runs and plenty of errors.

The teams accounted for twenty-seven hits, thirteen runs and four errors.

Birmingham hopped off to a one-

run lead in the first inning but saw this wiped out in the second, when the steers chased Robert Hasty from the mound under a four-run rally. Ray Caldwell, ancient veteran of the big leagues and minors, came to the rescue and held the Texas champions in check while his mates kept pecking away at the Steers' lead through the third and fourth.

Coming into the last half of the fifth, the Barons were trailing under a 5 to 4 count, but a barrage of hits and some untimely fielding miscues by Dallas gave them three runs and the game. Dallas threatened in the sixth with a one-run rally, but Caldwell retired the side and held them safe.

Indications were Ray Francis would pitch the third game for Birmingham with Milton Stock possibly gambling on a second start for Vic Frasier.

## HUGGINS DEATH CASTS GLOOM OVER MAJORS

Action Along Front in Both Circuits Still More or Less Perfunctory as Preparations Are Made To Bury Late Manager of Yankees.

(By The Associated Press)

With baseball still mourning the death of Miller Huggins, action along the major league front again was more or less perfunctory yesterday in the two decisions reached in each circuit. A fifth game, involving the White Sox and the Indians, was postponed on account of rain.

Going into battle for the first time since 1917 under leadership other than that of Miller Huggins, the Yankees pounded out a 10 to 3 victory over the Senators at Washington, and entrained for New York to attend the funeral of their deceased pilot.

The Athletics had little difficulty turning back the Red Sox, 5 to 3, far less than the score might indicate. George Barnshaw gave up just four hits in six innings, earning his twenty-third victory.

Dazzy Vance once more failed to go the route, and Philadelphia won its fourth straight from the Robins 12 to 3. Lester Sweetland was the winning pitcher. The victory lifted the Phillies over the Robins and into fifth place by a margin of half a game. This is the first time since 1917, in the fading days of Alex the Great and Pat Moran, that the Phils have been so high one week from the finish. The 1917 Phillies were runners-up to the champion Giants.

Schlip's single in the ninth drove home the winning run for St. Louis in a 2 to 1 victory over Pittsburgh. The defeat left the Pirates with a margin of only two and one-half games over the Giants in the race for second place.

Tigers; Miller, Athletics; Scarritt, Red Sox, 15.  
Homer—Ruth, Yanks, 46.  
Stolen Bases—Gehring, Tigers, 28.  
Pitching—Grove, Athletics, won 20, lost 5.

## Foxx Will Be the Baby of World Series Battle

Philadelphia, Sept. 27.—(AP)—Jimmy Foxx will be the baby of the 1929 world's series, but he may prove a lousy infant. The Maryland boy who led the American League in batting for months before being displaced by his teammate, Al Simmons, will be 22 years of age October 22. His world's series check from Commissioner Landis will be available if he wishes to purchase himself a birthday present.

Connie Mack almost robbed the cradle to get Foxx. Another great home run hitter, Frank Baker, the old Athletics' third baseman, now a Maryland farmer, sent him to the Athletics from the Eastern Shore League, and there never was a thought he belonged anywhere else.

The only difficulty Manager Mack found was in discovering a place where "Foxx," as he calls his young star, could do the most good. He was first a third baseman, had a fling at catching and then tried the outfield when he was only a juvenile non-"down home."

## Fans Pay Final Tribute to Mite Manager of Yanks

New York, Sept. 27.—(AP)—Metropolitan baseballmen today paid their last tribute to Miller J. Huggins, "Mite manager" of the New York Yankees, today. Funeral services for the Yankee chieftain who died on Wednesday, were arranged for 2 p. m., in the Church of the Transfiguration, the "Little Church Around the Corner."

Hundreds of close friends, acquaintances and just "plain fans" passed by the mighty little baseball veteran's bier in the church.

Arthur Fletcher and Charles O'Leary, coaches, and Babe Ruth, Lou Gehrig, Tony Lazzeri and Earle Combs, were selected as pallbearers.

Huggins will rest beside his father and mother in Cincinnati. Final services are to be held in the first Presbyterian Church, Cincinnati, Sunday afternoon.

## SHARKEY STOPS LOUGHRAN RISE

Boston SAILOR WINS BY KNOCKOUT IN THIRD ROUND OF BOUT

New York, Sept. 27.—(AP)—The Jekyll and Hyde of the heavyweights, Jack Sharkey, has put the big punch back in the picture, just as it seemed there wasn't a man-sized wallop left in the ranks. The big Boston sailor exploded it last night, without the slightest warning, to accomplish the downfall of Tommy Loughran, astonish a crowd of 45,000 spectators and restore his self to the top of the heavyweight brigade that has been battling so listlessly for the title left by Gene Tunney.

Sharkey, in the most convincing exhibition of speed and punching skill he has shown in more than two years, knocked out the Philadelphia boxing master in the third round of a 15-round match at the Yankee stadium. In less than seven minutes of actual fight, after 27 seconds of the third round had elapsed—Sharkey's unexpectedly vicious attack crushed the heavyweight hopes of the retired ruler of the 175-pound division.

Being the fight from the outset, Sharkey rushed Loughran to the ropes at the start of the third round, doubled him up with a left to the body, another left to the head and dropped the startled, wilting Philadelphia with a smashing right up the count of five, more from instinct than anything else, staggering toward a neutral corner, his back to Sharkey as Referee Lou Magnolia stepped in to keep the rampant sailor from renewing his attack.

Unhesitatingly, Magnolia stopped the fight, for Loughran, though on

## INDIANA AND WISCONSIN FACING DOUBLE HEADERS

Chicago, Sept. 27.—(AP)—Coaches Pat Page of Indiana, and Glenn Thistlethwaite of Wisconsin, today awaited reports from injury and eligibility fronts before naming lineups for their 1929 football season inaugurals tomorrow.

Page hoped some of seven potential regulars would be able to get

into the doubleheader program with Wabash College and Ohio University of Athens, Ohio. Wisconsin's share of the program also will be a doubleheader, with Ripon College and South Dakota State.

Michigan will make its season debut tomorrow in the third double bill of the day. One of Harry Kipke's varsity teams will engage Albion; a 2 to 0 score in 1928. The other will be opposed by Mt. Union, Alliance, Ohio.

## SARTIN OFFERS NOTHING CONSTRUCTIVE

R. D. Sartin's war cry sounded against what he termed Tammanyism, apparently has been recognized throughout the state for what it is. Certainly it has attracted little if any favorable comment in the press, the newspapers at Wichita Falls, the political aspirant's home city, being among those who have expressed opposite views.

When one gives serious consideration to Mr. Sartin's attitude and analyzes it from an unbiased viewpoint, it has little to commend itself to the citizen whose political aspirations are confined to a desire to see the administration of the government of his state improved. There is always justification for differences on live issues, determination of which will materially affect the administration of government and promise a solution of the problems of the state. When a candidate or a party leader can offer such justification he merits the serious consideration of every citizen, regardless of what party or political faction is championed.

The situation in Texas now surely presents opportunities for the development and advancement of plans for their solution. Surely no one is willing to admit by inference that there are no improvements to be desired in the administration of Texas affairs.

As a matter of fact, there are issues of vital importance which are forcing themselves to the front even while politicians are attempting to center the coming state campaign about old animosities and petty prejudices. For instance, anyone can perceive the vital need of better highway systems. A state bond issue has been proposed as a solution. Although there is wide divergence of opinion as to whether this plan is advisable, there has been no indications that candidates would express their view about the matter in their campaigns.

Are we satisfied with the expenses of state government? Do we favor further economy of the sort subscribed to by Governor Moody in vetoing some of the appropriation bills for schools and for reimbursement of West Texans who spent their own funds in combatting a pest that is a menace to the entire state? There are many live issues to be found.

But Mr. Sartin has not hit upon any of them. At a time when many vital problems are facing Texas he is attempting to start a quarrel within Texas Democracy concerning an organization that has never attempted to extend its influence to Texas and which will have even less to do with government in this state than will the administration of Mexico. When vital problems are pressing themselves upon the people of a state, the candidate who can find only the prejudices and animosities of an old presidential campaign upon which to base his candidacy has little to commend his ability to the people.

## PAYING TRIBUTE

We hear a great deal about high taxes and the high cost of government, but little is ever said about the high cost of crime. That the profession—it has become one in America—is costly to American citizens is presented rather graphically by John Gunther, Chicago newspaper man, in an article in the current issue of Harper's magazine.

The writer presents figures which he says shows that approximately \$136,000,000 a year is paid out by the business men of Chicago as protection money to racketeers or gangsters. He points out that the racket in the Windy City are costing each man, woman and child in the city something like \$40 a year in a sort of direct, super-legal tax.

The racket is usually quite simple. A racketeer decides to collect money from some business. He organizes a flimsy "protective association," and sends agents about inviting all engaged in that business to join, at so much apiece per annum. The agents explain that membership in the association will insure the business men protection from the city's gangsters.

If a business man refuses to pay, his place is bombed a few nights later or he is put out of business in some other way. So the business man joins the association, and he passes the expense of joining on to his customers, and eventually, every racket effects every person in the city. This is an illustration of what organized crime costs. If we permit it, this practice will spread throughout the nation. It will be a return to feudal days, with citizens paying tribute to the powerful barons of the underworld in the form of protection money. The surest safeguard is careful exercise of the franchise.

Certainly!

I can afford to feed

RED CHAIN

Dairy Ration

3 lbs. MORE of milk per day make it cost less than "cheap" feeds!

A cow requires about one ton (20 bags) of RED CHAIN Dairy Ration per year.

An increase in milk of ONLY 3 LBS. PER DAY (at \$2.00 per 100 lbs.) amounts to \$18.00 in 300 milking days.

This will allow you to pay as much as 90c per bag more for RED CHAIN than for "cheap" feeds.

WHY GAMBLE—WHEN RED CHAIN IS SAFE AND SURE?

FIGURE IT OUT FOR YOURSELF

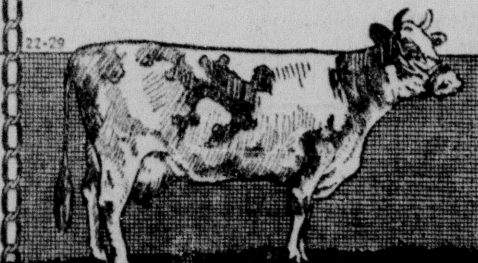

HERE'S no doubt about getting more milk from your cows when you feed RED CHAIN 24% Dairy Ration. It is safe because it contains less cottonseed meal than any other 24% dairy feed on the market, and its variety of proteins make it highly palatable, digestible and efficient.

When only three lbs. more of milk per day pays the difference between RED CHAIN and "cheap" feeds, can you afford not to feed RED CHAIN 24% Dairy Ration?

## The Kick Requires More Than The Toe

THE driving power behind the toe of the gridiron warrior is not acquired in a single day. It requires many an hour of hard work building up, step by step, a reserve force of energy, accuracy, strength.

Neither is financial success acquired over night. It requires the day-by-day building of a reserve fund, deposited where helpful bank associations add much to the value of the account.

We will be glad to safeguard your funds and aid in any way that will help you to roll up a good score in the game of life.

## ALMOST PAST GOING, HE SAYS

"I was so crippled up with rheumatism, I was almost helpless. My joints were sore and stiff and when I'd get up morning, I could hardly straighten out. I spent lots of money going to resorts and taking special baths but I didn't improve. I was constipated too and had awful headaches."

"It's wonderful the way Sargon overcame my troubles. Why, I haven't an ache or pain in my whole body now and feel as good as I ever felt in my life. I work hard all day, come home hungry, eat a big meal and then sleep like a log. Sargon Pills rid me of constipation and headaches and I want my friends to know that I think this is the finest medicine ever put in a bottle."—W. S. Haley, 315 Missouri Ave., Fort Worth, Tex. ## Tire Testing Interesting

One of the most interesting tests demonstrating the quality and strength of a product is the tire cord testing machine used by Hicks Rubber Company stores and associated stores, of which Hicks Tire Co., in Vernon is one.

The convincing part of the Hicks tire cord test is its simplicity. There is no intricate apparatus, no mechanical device and no elaborate setup to befuddle the observer.

Cords are taken out of tires and their actual strength tested. Weights are employed until the cords break, and thus is determined which cords are strongest and, therefore, which tires can stand the heaviest shock on the road.

Buck Jones, Famous Screen Star,  
Coming To Vernon With Circus

One of Vernon's most popular western screen stars, Buck Jones, pictured here, will appear in person at both performances of Robbins Brothers Big 4-Ring Circus in Vernon, next Wednesday, October 2.

The famous Hollywood celebrity is touring the country this season as the extraordinary featured attraction with the big Robbins show.

With him he will bring his world renowned string of movie horses, including "Silver," his entire motion picture company, who are assisting him in making a "western talkie" while en tour and a congress of stunt riders direct from his Hollywood ranch studio, where they have been helping Buck put thrills into his pictures by their dare-deviltry.

Buck is a regular he-man of the plains; the same type which won him fame as a screen character. His exhibition under the canvas of the big top of the Robbins Brothers Circus is packed with hard riding, fast shooting and roping that would be a sensation at any rodeo.

Highlights of Buck act with the Robbins circus is his presentation of "Silver," Hollywood most highly educated equine star and the reproduction of scenes, in the flesh and blood, which have been seen in the past in Buck's greatest screen successes. In the latter Buck presents his Hollywood film company—and you will recognize them all; the ranch foreman, the sneering villain, his bunk house pals, the old maid housekeeper and even the slick-haired bartender, who always ducked behind the bar when smoke wagons went into action.

Not to get behind with his picture production, Buck is taking advantage of the big opportunity to make a real circus "talkie". Of course Buck is the hero and a hard riding cowboy of the circus wild west show. Scenes from this current production are now

being made and it is reported that a very important "location" will be at Vernon, next Wednesday, October 2. Show-goers attending the big show, it is said, will be used in the big "crowd scenes" made that day.

To Build Cabin.

Members of Troop No. 1 of the Vernon Boy Scouts of America will begin work on their Scout Cabin this afternoon, V. L. Norworthy, scoutmaster, said today. The materials have been placed at the site of the cabin, a half mile west of the Pease River bridge north of Vernon. The other troops of the Vernon organization will hold their regular meetings as scheduled at 7 o'clock at the First Baptist Church and the Junior High School building.

NEW HAIR CUT PRICES TO  
BECOME EFFECTIVE OCT. 1

The new price on hair cuts of 35 cents announced this week by eleven 25 cent Vernon barber shops will not go into effect until Oct. 1, J. H. Perry, manager of the Perry shop, said today. The shops have been forced to raise their prices due to the new Texas barber law.

## KENTUCKY ROAD MEN CRITICISED

### IMPEACHMENT OF HIGHWAY COMMISSIONERS ASKED BY GRAND JURY

Frankfort, Ky., Sept. 27.—(P)—The Franklin county grand jury in its final report Thursday recommended that the 1930 general assembly institute impeachment proceedings against State Highway Commissioners and State Engineer J. S. Watkins.

The jury did not specify which of the commissioners should in its opinion, be impeached, but the report criticised severely the alleged conduct of Con Craig, Paducah; W. S. Hanna, Shelbyville, present commissioners, and E. S. Helburn, who resigned recently to become commissioner of internal revenue for Kentucky.

## England Has New Angle of Gossip About Next King

London, Sept. 27.—(P)—The breakfast tables of England revealed this morning in gossip about the Prince of Wales. A new intimate biography discusses why the heir to the British throne doesn't marry and whether he will mount the throne.

Retaining the best of so-called old-fashioned ethics in his creed of modernity, the Prince is a firm disciple of the belief that there is no use in marrying without love. Because he has not yet succeeded that emotion in its true intensity, the Prince does not get married. That is all there is to it.

The prediction of the late King Edward VII is recalled to the effect that the present Prince of Wales would be the last King of England. Reference also is made to the frequent suggestion made in England that the Prince himself is not enthusiastic toward the prospect of becoming a sovereign.

Declaring the Prince has probably spent more time and thought upon the science of royalty than any other living person, the book says he feels himself faced on the one hand with a view held by thousands who are not convinced whether royalty is necessary today or not.

Says the author: "He will without question make as good a king as his father, but he is a different type of man altogether."

Above, Mr. Sinclair is shown with his wife in a picture taken before he went to jail. Below is Maj. W. L. Peak, superintendent of the District of Columbia jail, who called

Washington, (AP)—From a world of silent men that recognizes no peers, Harry F. Sinclair soon will gain a return ticket to a vast domain that heeds the commanding voice of its ruler.

After an enforced exile that began May 6, Sinclair will return to rule his oil kingdom probably on October 6, when the doors of the Washington district jail are expected to swing open to the man who defied the United States senate and the country's courts.

Within its uninvited portals, one of America's greatest industrial giants has been subjected to the leveling influence of prison life where money and power are impotent.

Undergoing with stoical good nature and an uniform reticence a humiliating experience such as has befallen few men of equal rank in the business world, Sinclair has written his name upon the records of the old institution as a "model prisoner."

Those words tersely sum up the estimation of Sinclair's boss. That boss has been Maj. W. L. Peak, humanitarian ruler of the world in which the oil man has walked humbly since last May. The judgment of Major Peak has earned for Sinclair a

month's credit for good behavior, so he may gain his freedom in October.

Through the eyes of Major Peak the world is given a glimpse of the life that Sinclair has endured, and the courteous superintendent of the institution says it is that of any prisoner in the jail.

He did go for automobile rides in assisting the jail physician but this was stopped when it became known and assertions that Sinclair was being given "privileges" were made. Another man was assigned to make the outside trips.

Sinclair's daily existence during his confinement has been like this: Arise at 5:30. Make bunk and tidy cell. (Sinclair's is on the third floor of the west wing of the jail.) Breakfast between 6:30 and 7. Report for duty as jail pharmacist at 8 a. m. to Dr. Morris Hyman, jail physician. Dinner at noon, continuing in pharmaceutical duties until 4 p. m. Supper at 5, with leisure time from 5 to 9:30 when he retires.

His fare offered quite a contrast, naturally, to the excellent cuisine to which he has been accustomed. The "menu" for one day was: breakfast—hominy grits and bacon, bread and coffee; dinner—beef stew and

pickles, bread and water; supper—kidney beans and syrup, bread and tea.

Sinclair has lost 15 pounds while in jail but his plea for a pardon on the grounds it was impairing his health and further that the large business he directs was suffering failed to shorten his sentence further.
